Research interests

My research centers around technology use in families. I examine children and parents' perceptions and behaviors around digital privacy and safety in the context of smart home technologies. Accordingly, I aim to create child-centered smart home controls to make digital privacy and safety for children a default and transparent part of smart home experiences, so families are empowered to take active control in their smart homes.

Keywords: children's digital privacy and safety; smart home technologies; HCI

Education

- 2019 – Present **University of Michigan** | Ann Arbor, MI
Ph.D. in Information
Advisors: Florian Schaub, Chris Brooks
- 2016 – 2018 **University of Michigan** | Ann Arbor, MI
M.S. in Information - Human Computer Interaction
- 2011 – 2013 **University of Minnesota** | Minneapolis, MN
B.S. in Marketing

Affiliations

- 2021 – Present **Center for Ethics, Society, and Computing (ESC)** | Ann Arbor, MI
ESC Researcher

Honors & Awards

- 2022 – 2024 **2022 Meta PhD Research Fellowship**
Meta
Meta awards PhD candidates conducting cutting-edge research in emerging topics across computer science and engineering. I am one of the 37 recipients selected from 2,300 applications worldwide.
- 2018 **SOUPS Student Grant**
Symposium on Usable Privacy and Security Baltimore, MD, USA.
- 2016 – 2018 **Merit Scholarship**
University of Michigan School of Information.

Workshop Proceedings and Posters (3)

2022 **The Portrayal of Children in Smart Home Marketing**
Kaiwen Sun, Jingjie Li, Yixin Zou, Chris Brooks, Florian Schaub
Kids’ Online Privacy and Safety (KOPS), Co-located with *SOUPS* Aug 2022.

2020 **It’s Everyone’s Home: Designing Smart Home Technologies with Children in Mind**
Kaiwen Sun, Chris Brooks, Florian Schaub
CHI ’20 Workshop on Networked Privacy. Apr 2020.

2018 **Taking Student Data for Granted? A Multi-Stakeholder Analysis of a Learning Analytics System**
Kaiwen Sun, Abraham Mhaidli, Sonakshi Watel, Chris Brooks, Florian Schaub
EDM’18 Workshop on Policy and Educational Data Mining: Norms, Risks and Safeguards. July 2018.

2018 **Taking Student Data for Granted? A Multi-Stakeholder Analysis of a Learning Analytics System**
Kaiwen Sun, Abraham Mhaidli, Sonakshi Watel, Chris Brooks, Florian Schaub
Poster. *SOUPS’18: Symposium on Usable Privacy and Security*. USENIX, Aug 2018.

Teaching Experience

Graduate Student Instructor

Winter 2022 **SIADS 523: Communicating Data Science Results (University of Michigan)**
Oversee projects led by online data science program students and grade assignments.

Winter 2022 **SIADS 601: Qualitative Inquiry for Data Scientists (University of Michigan)**
Oversee projects led by online data science program students and grade assignments.

Fall 2021 **SI 582: Introduction to Interaction Design (University of Michigan)**
led weekly in-class discussion sections, oversaw 45 projects led by master students, held office hours, and graded assignments.

Winter 2021 **SI 658: Information Architecture (University of Michigan)**
Facilitated weekly lecture, provided feedback to 96 individual presentations delivered by master students, and held office hours.

5.0 (of 5.0) median rating (16 of 33 students).

Invited External Talks

- 2023 **Child Safety in the Smart Home**
University of Michigan, Privacy Day (Feb 8)
- 2022 **Child Safety in the Smart Home: Parents' Perceptions, Needs, and Mitigation Strategies**
The US Federal Trade Commission, PrivacyCon (Nov 1st)

Employment

- 2017 – Present **Graduate Student Research Assistant**
University of Michigan | Ann Arbor, MI
- Older adults' privacy and security perceptions and experiences around different types of digital contexts.
 - The depiction of children's experiences in smart home marketing.
 - The impact of privacy and security topics and discussions on consumers' adoptions of smart home technologies from Reddit.
 - Parents' perceptions and mitigation strategies of children's smart home safety.
 - Children's perceptions of data processing and digital privacy risks.
 - Measurement of students' privacy expectations and sentiments toward the use of student data in learning analytics.
 - Disparities in students' propensity to consent to learning analytics.
 - A multi-stakeholder perspective of privacy in learning analytics.
 - Empirical analysis of usability issues in data breach notifications.
- 2017 **User Experience Intern**
Kohler. Co, Emerging Technology Design Studio | Kohler, WI
- Contributed iterative concept development through exploratory UX research methods, mindmap, digital illustration, presentations, for use-case scenarios in bathroom and between connected IoT products.
 - Created new product interface information architecture and interactions through ideation, design research and wireframes while collaborating with two business units.
- 2017 **UX Consultant**
Harman | Novi, MI
- Designed a survey to uncover users' attitudes, behaviors and characteristics, analyzed survey responses to improve infotainment system user experiences.
 - Conducted usability tests to provide insights for client's design update.

Mentor, UROP (Undergraduate Research Opportunity Program)

Serve as research mentor for four undergraduate students on two research projects. Guide students to learn about research process and practice research skills.
